### EXECUTIVE ORDER

#### REAFFIRMING POLICY OF FULL PARTICIPATION IN THE DEFENSE PROGRAM BY ALL PERSONS, REGARDLESS OF RACE, CREED, COLOR, OR NATIONAL ORIGIN, AND DIRECTING CERTAIN ACTION IN FURTHERANCE OF SAID POLICY

WHEREAS it is the policy of the United States to encourage full participation in the national defense program by all citizens of the United States, regardless of race, creed, color, or national origin, in the firm belief that the democratic way of life within the Nation can be defended successfully only with the help and support of all groups within its borders; and

WHEREAS there is evidence that available and needed workers have been barred from employment in industries engaged in defense production solely because of considerations of race, creed, color, or national origin, to the detriment of workers' morale and of national unity:

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and the statutes, and as a prerequisite to the successful conduct of our national defense production effort, I do hereby reaffirm the policy of the United States that there shall be no discrimination in the employment of workers in defense industries or government because of race, creed, color, or national origin, and I do hereby declare that it is the duty of employers and of labor organizations, in furtherance of said policy and of this order, to provide for the full and equitable participation of all workers in defense industries, without discrimination because of race, creed, color, or national origin;

And it is hereby ordered as follows:

1. All departments and agencies of the Government of the United States concerned with vocational and training programs for defense production shall take special measures appropriate to assure that such programs are adminis-

tered without discrimination because of race, creed, color, or national origin;

2. All contracting agencies of the Government of the United States shall include in all defense contracts hereafter negotiated by them a provision obligating the contractor not to discriminate against any worker because of race, creed, color, or national origin;

3. There is established in the Office of Production Management a Committee on Fair Employment Practice, which shall consist of a chairman and four other members to be appointed by the President. The Chairman and members of the Committee shall serve as such without compensation but shall be entitled to actual and necessary transportation, subsistence and other expenses incidental to performance of their duties. The Committee shall receive and investigate complaints of discrimination in violation of the provisions of this order and shall take appropriate steps to redress grievances which it finds to be valid. The Committee shall also recommend to the several departments and agencies of the Government of the United States and to the President all measures which may be deemed by it necessary or proper to effectuate the provisions of this order.

### TITLE 8—ALIENS AND NATIONALITY

#### CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE

[General Order No. C-32]

#### PART 110—PRIMARY INSPECTION AND DETENTION

#### REGULATIONS GOVERNING THE ISSUANCE AND USE OF RESIDENT ALIENS' BORDER CROSSING IDENTIFICATION CARDS

JUNE 25, 1941.

Pursuant to the authority contained in sections 30 and 37 (a) of Title III of the Alien Registration Act, 1940 (54 Stat. 673, 675; 8 U.S.C. 451, 458), § 90.1, Title 8, Chapter I, Code of Federal Regulations (5 F.R. 3503), and all other authority conferred by law, the following changes are hereby prescribed in Part 110 of said Title 8, Chapter I, Code of Federal Regulations:

Present §§ 110.53 to 110.58, inclusive (Rule 3, Subdivision Q, Paragraphs 1 [as amended by General Order No. C-4, of August 5, 1938] to 6, inclusive, of the Immigration Rules and Regulations of January 1, 1930, Edition of December 31, 1936) are canceled.

Present § 110.59 (Third Amendment to General Order No. 101, dated May 4, 1934) is renumbered as § 110.53.

The following new sections are promulgated:

§ 110.54 *Resident aliens' border crossing identification cards; qualifications necessary to obtain.* (a) A resident alien's border crossing identification card may be issued to any alien who submits satisfactory evidence that he (1) has been legally admitted to the United States for permanent residence and has not relinquished the status of a permanent resident, (2) has complied with the applicable provisions of the Alien Registration Act, 1940, and (3) has a legitimate purpose and reasonable need to make a temporary visit or visits to contiguous foreign territory, with no single visit to exceed a period of six months: *Provided, however,* That no such card may be issued nor shall any such card previously issued be renewed unless the applicant or holder thereof is known or shown to be a person who is permitted to depart from the United States under the terms of laws, regulations, Executive Orders, or other governmental restrictions regulating the departure of aliens from the United States in effect at the time application for such card or renewal thereof is made.

(b) No border crossing card issued to a resident alien under regulations or instructions heretofore in effect shall be renewed unless the holder satisfactorily establishes that he has complied with the applicable provisions of the Alien Registration Act, 1940. When an alien has been assigned a registration number that number, when known, shall be

shown on his resident alien's border crossing identification card.\*

\*Secs. 30 and 37 (a); 54 Stat. 673, 675; 8 U.S.C. 451, 458.

§ 110.55 *Resident aliens' border crossing identification cards; application and preparation.* Application for a resident alien's border crossing identification card may be made, upon a form prescribed for that purpose, at any immigration and naturalization field office in the continental United States. The applicant shall appear in person and, under oath or affirmation, shall execute his application before an immigrant inspector. The applicant shall furnish three photographs, size 2 by 2 inches, the distance from the top of head to point of chin to be approximately 1 1/4 inches, unmounted, printed on thin paper with a light background, clearly showing a full front view of the features of the applicant without hat, and they shall have been taken within 30 days of the date when they are furnished. The identification card shall be prepared in duplicate, with a photograph of the applicant affixed to the original and to the duplicate. Entries on the card shall be made by typewriter, if practicable, or in ink, and the applicant shall sign the original and duplicate in ink, either with his full name or by witnessed mark after proper identification. The application, with a photograph of the applicant attached, shall be retained in the office where it is made.\*

§ 110.56 *Resident aliens' border crossing identification cards; use.* The use of a resident alien's border crossing identification card shall be confined to a port or ports of entry designated by the applicant and named in the application and on the card. The original card shall be given to the applicant by the issuing office and the duplicate card shall be kept at or sent to the port where the applicant intends to make his first reentry to the United States as specified in the application. When the first reentry at that port and the first entry at each other port where use of the card is authorized occur, notations showing the date and place of such entries shall be placed on the original card and a manifest record of each of those admissions shall be made. The duplicate shall remain on file at the port where the card was first used, unless it is deemed advisable to transfer it to a port at which the holder is making more frequent use of the original card.\*

§ 110.57 *Resident aliens' border crossing identification cards; period of validity; issuance, revalidation and cancellation discretionary.* A resident alien's border crossing identification card shall be valid for an initial period of six months, and may be revalidated for additional periods of six months each. In the discretion of the revalidating officer, a card may be revalidated for an additional six months even though the period of its present validity has not expired, but in such cases the new period of valid-

ity shall extend for six months from the date of revalidation and not from the date on which the validity of the card otherwise would have expired. The revalidation preferably should be accomplished by the original issuing office, but if that is not practicable, it may be done by any other office where use of the card is authorized. Before any card is revalidated inquiry shall be made to determine whether the holder is eligible to continue its use. The revalidating office may request that the inquiry be made by another office of the Service. When a card is revalidated a notation showing the date and place of revalidation and the signature of the validating officer shall be placed on the card in ink. The issuance or revalidation of any such card shall rest within the discretion of the officer considering the application for issuance or the revalidation. If at any time it appears to any officer of the Service that a resident alien's border crossing identification card is in the possession of a person who is no longer entitled to its use, or that it is being illegally or improperly used, or that other reasons justify such action, the card may be lifted. After consideration of the facts, the officer in charge of the district in which the card was lifted may cancel it for cause, or may in his discretion return it to the alien. Information concerning the revalidation or cancellation of any such card shall be furnished the office or offices where the application and duplicate card are filed.\*

§ 110.58 *Resident aliens' border crossing identification cards; reentry of holders.* (a) The holder of a resident alien's border crossing identification card issued under § 110.54 may present that document in lieu of an immigration visa or reentry permit when applying for admission to the United States as a returning legal resident after an absence from the United States of not to exceed six months, provided that during such absence he shall not have visited any foreign territory other than that contiguous to the United States. The presentation of a resident alien's border crossing identification card shall not otherwise relieve the applicant from establishing that he is not subject to exclusion from the United States.

(b) Except as hereinafter provided, no applicant for admission shall be entitled to reenter the United States upon the basis of a resident alien's border crossing identification card which was issued more than six months prior to his application for admission, unless such card has been revalidated and the period of revalidation extends to or beyond the date of his application for admission. Any alien who presents a card the validity of which has expired shall be required to obtain an immigration visa before being readmitted to the United States as a returning legal permanent resident, except that in any case where the alien has not been absent for more than six months and it shall appear to the satisfaction of the officer in

charge at the port where the alien seeks to reenter that his return to the United States during the period of validity of his card was prevented by illness, hospitalization, or other circumstances which in the opinion of the officer in charge justify such action, the said officer in charge is authorized to revalidate the card as of the date of the application for reentry and to admit the alien upon the basis of the revalidated card if he is otherwise entitled to readmission.\*

General, in Charge Immigration

(c) *Subjects for military knowledge qualification requirements.* The subjects included in the military knowledge qualification requirements for appointment in the lowest grade and for promotion to higher grades will correspond to those contained in the current Annual Announcement of Army Extension Courses. Evidence of qualification in the listed subjects is determined by the satisfactory completion of the required series of the Army Extension Courses, or by prescribed waivers and exemptions.

(d) *Second lieutenant, appointment to grade of—*(1) *Military knowledge qualifications.* See paragraph (c).

(g) *Nonmilitary educational qualifications—*(1) *Collegiate education.* The satisfactory completion of not less than 4 years of appropriate studies at a college, university, or professional school of recognized standing.

(2) *Education in lieu of college.* Warrent officers and noncommissioned officers of the Regular Army, seeking appointment in the Officers' Reserve Corps with assignment to the combat, photographic, pigeon, or supply sections, may be exempted from the requirements of (1) above, provided they have been recommended by their regimental or other unit commander, and have graduated from a public or private secondary school, accredited by State authorities with the regularly authorized diploma upon completion of the eleventh or twelfth grade curricula. Specialist Reserve Section embrace all those officers required for procurement activities and industrial mobilization who are not commissioned in another section of the Officers' Reserve Corps and whose appointments in the Specialist Section have been specifically authorized by the Secretary of War or the Assistant Secretary of War. The Chief of the Personnel Bureau, The Adjutant General's Office, will exercise supervision over this section.

(2) The Specialist Reserve includes not only officers highly specialized in some technical profession but also those whose demonstrated ability and experience in civil life make it especially desirable that they be commissioned for specific duties in the procurement organizations of the supply arms or services, or for duties in connection with industrial mobilization.

(3) The chiefs of the supply arms and services, insofar as practicable, will assign to procurement activities Reserve officers commissioned in those arms and services. Positions in the procurement organizations which cannot be filled by such officers, or by civilians, may be filled by the appointment of officers in the Specialist Reserve. However, not to exceed 60 percent of the aggregate peacetime procurement objective of officer personnel (including specialists) assigned to procurement activities of each supply arm and service will be filled.

(b) *Special limitations to appointment in time of peace.* (1) Original appointments in the Specialist Reserve will be limited to the grades of captain and major, except where unusual qualifications, the age of the applicant, and the nature of the position warrant a higher grade.

(2) The minimum ages for original appointment will be as follows:

To the grade of—	Years
Captain .....	30
Major .....	35

(3) Original appointments will be made to fill specific vacancies in the procurement organization only after it has been found impracticable to secure qualified Reserve officers commissioned in the appropriate arm or service section and assigned to the arm and service assignment group, and provided that the applicants' qualifications fully meet the requirements and job specifications of the proposed assignments.

(c) *Professional qualifications for appointment.* Original appointments will be made only where the applicant in civil life has demonstrated his outstanding ability to function in the specific assignment and in the grade for which he is recommended. In the interest of the national defense and pursuant to authority vested in the Director of Priorities, it is hereby ordered:

§ 943.1 *Preference rating order.* (a) Subject to all the terms, conditions and requirements of this Order, preference rating A-1-b is hereby assigned:

(1) In favor of the Producer (as hereinafter defined), and in favor of each Rated Subcontractor (as hereinafter defined), to deliveries of material entering, directly or indirectly, at any stage of production, into the following Airframes, i. e., Heavy Bomber Airframes designated by the United States Army Air Corps as Models -----: always provided, however, that any such material is included in the current Priorities Critical List of the Army and Navy Munitions Board as amended from time to time.

(2) In favor of the Producer to deliveries of material consisting of cutting and other perishable tools and equipment of like nature other than machine tools or similar machinery required in the manufacture of the above specified Airframes.

(b) For the purposes of this Order:

(1) "Defense Orders" means any contracts or orders for the above specified Airframes placed by the Army or Navy, or for the defense of Great Britain, including contracts or orders from other parts of the British Empire for that purpose or any contracts or orders for the above specified Airframes for which the delivery schedule has been approved by The Joint Aircraft Committee.

(2) "Producer" means the person, firm or corporation, or any division or plant thereof, engaged in the production of Airframes for Defense Orders, and to whom a copy of this Order is specifically addressed, and who has accepted the same in the manner in (e) below set forth.

(3) "Supplier" means any individual, firm or corporation holding a contract or order for the delivery of material which enters into the production, directly or indirectly, at any stage of production, of the above specified Airframes by the Producer and in whose favor the preference rating as herein provided has not been extended. When the preference rating herein provided has been extended in favor of a Supplier, and such Supplier has accepted the same in the manner in (e) below set forth, such Supplier then becomes what is hereinafter called a "Rated Subcontractor".

(c) The Producer, and each Rated Subcontractor, shall, so long as this order is in effect as to him:

(1) Maintain accurate records of all extensions of such preference ratings hereunder pursuant to this Order, stating the name and address of each Rated Subcontractor to whom such preference rating has been extended; and the kinds, values and quantities of material covered by each such extension, and dates of delivery thereof; and maintain records, according to sound accounting practices, of inventories and stocks on hand, and contracts and orders on his books, and of schedules of deliveries, required pursuant to such contracts or orders. Such records shall be preserved for at least 1 year after the revocation or expiration of this Order or modifications or amendments thereto.

(2) Furnish information respecting the matters covered by (c) (1), and respecting any other pertinent matters to the Priorities Division, Office of Production Management, from time to time, as required by said Division. Until further ordered, such information shall be so furnished on the 15th day of each month for the preceding month as required by Form PD-43,<sup>1</sup> or on any other form of report which may be approved by the Priorities Division, which shall be sent to the Priorities Division, Office of Production Management, Washington, D. C.; which report must be sworn to by an authorized officer or individual of the Producer or Rated Subcontractor furnishing

the same, and certified by a Contracting or Procurement Officer, or Inspector of the Army or Navy as provided in said report; or, in the alternative, a Producer or Rated Subcontractor shall send to the Priorities Division, Office of Production Management, on the 15th day of each month, copies of all purchase orders to which said preference rating has been applied in the preceding month, provided, however, that such purchase orders contain the following information: Vendor's name, description, unit quantities and dollar value of the material ordered, together with the delivery or delivery schedule thereof. (d) The Director of Priorities will take action to revoke the Order as to any Producer or Rated Subcontractor who fails to file the report as required in (c) (2) above.

(f) This Order, or any extensions thereof, may be revoked, modified or amended by the Director of Priorities at any time as to the Producer or as to any or all Rated Subcontractors. In the event of any such revocation, or upon expiration of this Order by its terms,

Further, in the event of revocation of this Order, the Producer and/or each Rated Subcontractor affected thereby, shall each return to the Priorities Division the copy of this Order whereby the preference rating was assigned or extended in his favor within 3 days of such revocation; and the Director of Priorities may notify all affected Rated Subcontractors and other Suppliers of such revocation. ## FEDERAL POWER COMMISSION.

[Docket No. IT-5701]

IN THE MATTER OF CAROLINA POWER & LIGHT COMPANY  
ORDER TO SHOW CAUSE AND FIXING DATE FOR HEARING

JUNE 24, 1941.

It appearing to the Commission that:

(a) On March 29, 1940, Carolina Power & Light Company (hereinafter referred to as Company) filed and sub-

mitted its proposed reclassification and original cost studies purportedly in accordance with the requirements of the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees, effective January 1, 1937, and the Commission's order of May 11, 1937;

(b) The Commission's staff has made a field study of the Company's proposed reclassification and original cost studies and submitted a report to the Commission, entitled, "Carolina Power & Light Company, Raleigh, North Carolina, Report on the Reclassification and Original Cost Studies of Electric Plant as at January 1, 1937," which report is to be served herewith upon the Company;

(c) As is indicated in said report, the staff of the Commission has reversed the Company's reclassification of its utility plant in its entirety, establishing \$23,920,862.08 in Account 107, Electric Plant Adjustments, and transferring the balance of \$67,178,846.23 to Account 100.6, Electric Plant in Process of Reclassification;

(d) It is recommended in said report that the Company submit a plan for the disposition of the amount of \$23,920,862.08 established in Account 107, Electric Plant Adjustments;

(e) The balance of \$67,178,846.23 was established in Account 100.6, Electric Plant in Process of Reclassification, by the staff of the Commission, because, as is more fully set forth in the report, such amounts had not been classified by the Company in accordance with the requirements of the Commission's Uniform System of Accounts and the Commission's order of May 11, 1937, referred to in paragraph (a) hereof;

(f) It is recommended in said report that the Company reclassify the balance of \$67,178,846.23, established in Account 100.6, Electric Plant in Process of Reclassification, in accordance with the requirements of the Uniform System of Accounts and the Commission's order of May 11, 1937;

The Commission finds that: It is advisable, necessary and proper in the public interest that Carolina Power & Light Company be required to show cause, if any there be, at a public hearing:

(1) Why the Commission should not order Carolina Power & Light Company:

(i) To record on its books the adjustments recommended by the staff of the Commission in the above-mentioned "Report on the Reclassification and Original Cost Studies of Electric Plant as at January 1, 1937";

(ii) To dispose of the amount of \$23,920,862.08, established in Account 107, Electric Plant Adjustments, by the staff of the Commission in accordance with the evidence adduced at the hearing;

(iii) To prepare and submit to the Commission a reclassification of the amount of \$67,178,846.23, established by the report referred to in paragraph (b) hereof, in Account 100.6, Electric Plant in Process of Reclassification, in accord-

ance with the requirements of the Uniform System of Accounts Prescribed for Public Utilities and Licensees, effective January 1, 1937, and the Commission's order of May 11, 1937;

(2) Why it has failed to comply with the requirements of the Commission's Uniform System of Accounts and the Commission's order of May 11, 1937;

(3) Why the Commission should not institute appropriate proceedings against it, its officers, and directors for failure or refusal to comply with the Commission's Uniform System of Accounts and the Commission's order of May 11, 1937, referred to in paragraph (a) hereof;

The Commission orders that:

(A) The Secretary serve a copy of the report referred to in paragraph (b) hereof upon the Company concurrently with the service of this order upon the Company;

(B) A public hearing be held on July 21, 1941, at 9:45 a. m., in the Federal Court Room, Federal Building, Raleigh, North Carolina, and at such hearing Carolina Power & Light Company show cause, why the Commission should not determine by order that:

(i) Adjusting entries be made to bring the Company's accounts in conformity with all the recommendations made by the staff of the Commission in the "Report on the Reclassification and Original Cost Studies of Electric Plant as at January 1, 1937" referred to in paragraph (b) hereof;

(ii) Disposition be made of the amount of \$23,920,862.08 established in Account 107, Electric Plant Adjustments, by the report referred to in paragraph (b) hereof in accordance with the evidence adduced at such public hearing;

(iii) Carolina Power & Light Company prepare and submit to the Commission a reclassification of the amount of \$67,178,846.23 established in Account 100.6, Electric Plant in Process of Reclassification, by the report referred to in paragraph (b) hereof, in accordance with the requirements of the Commission's Uniform System of Accounts and the Commission's order of May 11, 1937;

(iv) Appropriate proceedings be instituted against Carolina Power & Light Company, its officers, and directors, for failure or refusal to comply with the requirements of the Commission's Uniform System of Accounts and the Commission's Order of May 11, 1937;

(C) The Utilities Commission of North Carolina and the Public Service Commission of South Carolina may participate in the hearing, as provided in § 39.4, of this Commission's Rules of Practice and Regulations prescribed pursuant to the provisions of the Federal Power Act.

By the Commission.
